

# TRIACETIN

---

## Specification

Property	Units	Limits	Test method
Appearance	-	clear liquid	visual assessment
Colour	scale Pt/Co	max 15	Chinese standard GB605-88
Purity	%	min. 99	gas chromatography
Water content	%	max. 0,10	Karl Fischer titration
Acid content	%	min. 0,005	acid-base titration
Refractory index	--	1,429 – 1,431	refractometer
Specific weight at 25°	g/cm <sup>3</sup>	1,154 – 1,158	densimeter
Sulphated ash	%	max. 0,02	(as citric acid)
Arsen (As)	ppm	max. 3	
Lead (Pb)	ppm	max. 2	

Triacetin is a product of Chinese producer, delivered including certificate of analysis.

## Packaging

Steel drums 240 kg net, IBC 1 000 kg.

Shelf life 2 years, storage in tightly closed containers. Heated warehouse is not required.

## Other information

Triacetin is not a dangerous chemical substance.
